Nicki,

Attached is the revised draft OU1 SOW for New Cassel/Hicksville.

I've also attached Table 1, which is the schedule of RD deliverables. I believe this is the first time you're seeing this table beyond me pulling it up on the screen during our meeting in February.

ERT is finishing up addressing the remaining comments on the PDI work plan and I expect to have those by end of week.

Please let me know if you would like to take a look over the work plan.

I'm getting anxious because we are meeting with the PRPs on 3/23 and we need to be able to provide them with the AOC, SOW, and PDI Work Plan that day. Jen and her consultant are still finalizing the PDI Work Plan. Depending on how that changes, the SOW might change as well. This whole package will need to get through concurrence very quickly. In the interest of time, I have attached hereto the latest version of the AOC. This shouldn't change unless there are wholesale changes to the SOW, which I do not expect. Please read this AOC and give me your comments. That way there is less to go through when the concurrence package hits your desk. We may have very little time at that point. I've also attached a redline to the last version of the AOC most of you saw. Note that there are still a few comments in the document. They are mostly responses to Jen's previous comments.

Let me know if you have questions or comments.
